Potter's Hand Ministries Church

Potter's Hand Ministries Church

There will soon be a new church in downtown Red Deer. Potter's Hand Ministries has purchased an existing building at 5202 -53rd Ave. Berry Architecture provided design and architectural drawings for the interior renovation to make this former business space into a welcoming and peaceful place for the congregation to gather. The project is at the occupancy permit stage, so it will be ready to open its doors very soon!

Grace United Church

We are happy to announce that Berry Architecture will be undertaking a project with Grace United Church in Lloydminster. It will be a major renovation to their 1950 and 1960 era church. The church has undergone a number of disjointed additions over the years, and the original building is no longer serving the needs of the church. Through demolition, new construction, and re-working the existing space, the renovation will create a functional, seamless church which preserves the existing sanctuary and integrates new spaces for administration, classrooms, meeting rooms, kitchen, etc. We welcome the challenge of respecting the history of the church while making it work well now and for many years to come.

Volume 1, Issue 10

Welcome to the Team!

We are pleased to announce that on October 1st Kyle Schultz joined our team to fill our open Architectural Tech position. Kyle completed two years of general studies at Taylor University before attending NAIT. His construction background and experience as a production manager will be valuable to Berry Architecture and for better serving our clients. Kyle stays challenged in his work by continuous professional development and is passionate about building positive customer relationships and being part of great architecture. Welcome to the team Kyle!

Green Roof Party

Thanks to everyone who attended our Green Roof Party on September 17. We were delighted to have such a great turn-out and hope our guests enjoyed it as much as we did. We love having the opportunity to share our passion for green innovations and to demonstrate what can be done right here in Alberta with a green roof. Thanks to Cynthia Pohl and Living Lands Landscape for all their hard work in bringing this project to fruition.
