Wetaskiwin First United Church

Construction of First United Church in Wetaskiwin has been completed; the first service was held in the new sanctuary on February 5, 2012. This was an exciting and emotional day for the congregation as their original church had been completely destroyed by fire. The new sanctuary seats 200 people and features a barrier-free elevated chancel which accommodates the pulpit, choir, and piano. A light-filled family room adjoining the sanctuary has windows for easy viewing. A large commercial kitchen and multi-purpose hall are key features since meal preparation and service are such an integral part of this church home. Other spaces include offices, meeting rooms, classrooms, and storage. The building's appearance and welcoming atmosphere were designed to reflect the church's mandate of embracing its community. The official opening will take place in March, 2012.

NAME THAT PROJECT

This 39 unit affordable housing project received a National Award for Best Practice from Canadian Mortgage and Housing Corporation. Our challenge was to work with an existing foundation and incorporate a variety of suites and amenity spaces with unique purposes while producing an aesthetically pleasing facade. Link, Like, Learn

Connecting online through various social media outlets can offer many benefits to you as a business, consultant, product representative, or project developer:

- Link your company to photos and news articles of your project or products that our team has posted;
- Let us promote and chronicle your project for you;
- Request weekly/biweekly photos and videos during construction;
- Learn about new technologies and products;
- Connect with others who have similar projects and developments;
- Create buzz and consumer marketing about your projects;
- Connect with product suppliers and consultants;
- Watch for career opportunities;
- Learn about upcoming contests and events.
