"Name that Project" Contest

Before Picture of Large Renovation Project in Red Deer

Berry Architecture Wellness Ride

Registration is now open for the August 24, 2013 Wellness Ride. This year we are offering three distance categories: 25 km, 50 km, and 100 km. So if you've been hesitant to commit yourself to the longer distances, now is your chance to ride a very obtainable 25 km and have the opportunity to raise money for the Canadian Mental Health Association and Central Alberta Brain Injury Society. Participants are asked to raise (or contribute) at least \$250. Come on out to raise money for these great organizations and have a lot of fun at the same time! Register at: www.wellnessride.ca

Congratulations!

to Darlene Purser of the Canterbury Foundation. Darlene was the winner of our BBQ Basket at the ASCHA Tradeshow. Enjoy!

Project Progress

Bashaw Meadows Supportive Living Lodge

Bashaw Meadows Supportive Living Lodge is progressing rapidly. It will be turned over to the Bethany Group on May 27, and the first residents will be moving in on June 10.

Grace United Church

Grace United Church in Lloydminster is currently out for tender, and hazardous materials abatement has begun.

Peerless Trout Community Health Centre

Peerless Trout Community Health Centre is at the Construction Start-up phase. We are pleased to be working with Chandos Construction on this project. Susanne Widdecke is our Construction Administrator.

Commuter Challenge – June 2–9, 2013

It is "Commuter Challenge" time once again, and Berry Architecture staff are gearing up to participate. Employees are challenged to take a bus, carpool, bike, walk, rollerblade, skateboard (or any other alternate means they can think of) to get to work in a more carbon-friendly way. Each participant tracks his/her results, and the overall CO2 emission and fossil fuel savings are calculated. We did very well last year and are hoping to improve this year. Your business or organization can sign up at commuterchallenge.ca to take up the challenge.

2012 BAA Summary

Total KM	1080.8
CO2 Avoided (kg)	95.02
Fuel Saved (litres)	40.26
Calories Burned	1397
