*Thank you to our customers for your business over the past 15 years! It's a privilege to be your architecture firm. Our official anniversary date was July 17.*

Ellis Bird Farm will soon have a new Visitor Centre. Thanks to a generous donation from ME Global, the Bird Farm has funding for the project, which will begin immediately. Berry Architecture donated the design services for the project. The new Visitor Centre will be a great addition to this local gem. The Centre will include a multi-functional hall with an interpretive display area, gift shop area, kitchen, guest services, washrooms, and large covered patio.

We have helped secure funding for a number of successful projects for seniors' foundations, affordable housing groups, and not for profit organizations. We can make the process go smoothly and relatively painlessly! We've had a good success rate with securing funding and have assembled "go to" contacts over the years. Let us help you secure the funding you need for your next project. Contact our office for more information.

The ride supports two local organizations—Canadian Mental Health Association and Central Alberta Brain Injury Society. It's a great cause and a lot of fun, too.
