## New Project: Spirit River Seniors' Apartment

Berry Architecture is working on a new 26-unit, self-contained seniors' apartment building in Spirit River, Alberta. The new apartment will be located adjacent to the new Spirit River Lodge, which is currently under construction. It will be a four-storey facility with a mix of 13 large one-bedroom units, eight smaller one-bedroom units, and five two-bedroom units. The new apartment will have many amenity spaces, including a multi-purpose room/fitness space, common dining area, common laundry rooms, and common gathering

spaces on each of the floors. We were very pleased to have the opportunity to complete this project for the Grande Spirit Foundation—we had previously provided the schematic design as part of the Spirit River Lodge project. Project is currently in the Design Development stage.

*Happy Holidays from  
Berry Architecture!*

## After Hours Event in Cranbrook

L-R, back row: George, Isaac, Carlos, Lee  
Front row: Cody, Susanne, Noemie

On November 22nd, Berry Architecture hosted a Chamber of Commerce "Business After Hours" event in Cranbrook. The get-together took place at the 101 Kootenay Building, where we recently completed an interior/ exterior reno project. We had a great turnout, and it was an excellent opportunity to engage with the vibrant local business community. Thanks to everyone who attended!

## Grand Opening—Glendale School Science Lab

A grand opening celebration was held on November 23rd for one of our recently completed projects—the newly renovated Science Lab and Creation Station at Glendale Sciences and Technology School in Red Deer. Two classrooms were renovated into science labs. Upgrades included new interior finishes throughout and re-configuring the spaces to meet the programming needs to expand the science program for Kindergarten to Grade 8 students. Angela Flinn, Alvin Lam, and George Berry were in attendance. Guests took part in various STEAM activities which focused on air movement, water erosion, density, conductivity, laser printing, graphics, and electronics.

## BAA Staff Christmas Party

Our staff Christmas party this year was a trip to the Jubilations Dinner Theatre in Edmonton on November 26th! It's been awhile since we could do a big event, and all but two team members were able to attend. It was a fun time!
