Winter Wellness Ride

We are planning a new Wellness Ride event this year! In February, we will be hosting a winter version of our wellness ride. It will feature spin bike clinics with former pro cyclists and a banquet to raise funds for Canadian Mental Health Association and Central Alberta Brain Injury Society. This is still in the planning phase, and we are looking for some additional corporate sponsorship. If you or your organization would like to be a sponsor of this event, please contact George directly at georgeb@berryarchitecture.ca or call 403.314.4461. Your involvement is much appreciated!

Food Bank Donations

We will be collecting food bank donations again this year from November to the end of January. If you're in the office and would like to contribute, please drop off your donation with Shylia. Thanks!

Winter Energy Saving Tips

Annual Safety Audit

We recently completed our annual COR Safety Audit and received a score of 96%!

Project Start-up:

Goodfish Lake Health Centre

We are excited to announce the start-up of a new health care centre project in Goodfish Lake. We will be working with Whitefish Lake First Nation and Health Canada on an expansion to the existing Community Health Centre. The expansion will include community health, home and community care, and support services. We feel so privileged to work on another community-based health project. Working for the long-term good of individuals and their communities is why we practice architecture.

Our Services: Facility Reviews

Did you know? Berry Architecture has a department of highly trained professionals dedicated to facility reviews and evaluations. A facility review is a great tool for investigating building issues, determining maintenance and renovation needs, and overall planning for the future of a facility. An integrated building evaluation will review the building envelope, structural components, mechanical and electrical systems, and by-law and building code compliance. More in-depth/specialized reviews are also available. Contact tracyw@berryarchitecture.ca for more information on our facility review services.
