Sylvan Lake Library Project Start-Up

We are pleased to announce the start-up of a new project in Sylvan Lake. The Sylvan Lake Municipal Library is undertaking an expansion and renovation project which will see the addition of 2,500 sq. ft. to their existing space as they expand into the space formerly occupied by the town archives. At Berry Architecture, we really enjoy working on community-based projects because they have such immediate and lasting benefits for individuals, families, and communities.
