Project Update: Runners RV

Runners RV in Cranbrook is nearing completion. This project is a 17,400 ft² RV Dealership that features a large showroom, five service bays, and executive office spaces. The large site will accommodate hundreds of RVs and holiday trailers, maximizing customer choice and satisfaction. We had to be flexible and creative with this project since it was constructed while building materials were in scarce supply. We also utilized ICF walls—a system which provides superior building envelope technology compared to pre-engineered steel buildings. Using this technology also sped up the construction time considerably. Runners RV is located on McPhee Road and is expected to be completed and open for business next month.

BAA Curling Team Finishes in 2nd!

Our Berry Architecture curling team took part in the Red Deer Chamber of Commerce Ambassador Curling Bonspiel again this year. We won two out of three games (our first wins ever) and ended up in second place! The team was made up of Raymond Rogers, Lee Phillips, Alvin Lam, and Tracey Evans. Apparently, Ray has actual curling skills and experience, so that really helped. Thanks to all for participating. We're so proud of our team!

Spirit River Lodge: Construction Update

Construction is progressing well on the new Spirit River Lodge in Spirit River, Alberta. It is currently at the 40% completion stage. Check out the drone video footage provided by Krawford Construction. It gives a great view of how the project is progressing! Thanks, Krawford! [Click here to view video](#)

Our New Location in Kelowna

We are moving to a new location in Kelowna! As of April 1st, we will be located in The Innovation Centre. This is a really cool co-working space similar to the location of our Cranbrook office. Our new address is: Office 512, 106-460 Doyle Avenue, Kelowna, BC V1Y 0C2. Watch for photos and more info next month!
