April Crocuses on our Green Roof

Kelowna Edition: New Location and Staff

Exciting things are happening at our Kelowna office! We have just relocated to a new space in The Innovation Centre. This is a co-working space similar to our location in Cranbrook. The new address is: Office 512, 106 - 460 Doyle Avenue, Kelowna, BC, V1Y 0C2. At the end of March, Carlos was joined by our newest team member, Cassia Ward! Cassia is an Interior Designer who is also an Architect in Australia. In addition, we are currently looking for a summer student to round out the Kelowna team.

Carlos and Cassia in the new office

BAA Bowling Fun!

The Red Deer team went for a bowling and snacks afternoon on March 25. We had a great time—although there were a couple of ringers in the bunch!

Welcome New Team Member!

We are very pleased to welcome Cassia Ward to our team! Cassia has a Bachelor of Interior Design degree from Ryerson University (now Toronto Metropolitan University) and a Master of Architecture degree from the University of Melbourne, as well as nine years of architectural experience in Australia. She will be contributing to both architectural and interior design and will be working with Carlos in the Kelowna office. Welcome, Cassia!

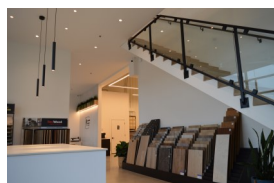

Rebels Game

We were very fortunate to receive an evening in the ATB skybox at the first Red Deer Rebels play-off game on March 31st. It was such a fun night. Thanks so much, ATB!

Kelowna Project—Strong Roots Flooring T.I.

A project we recently completed through the Kelowna office was a Tenant Improvement for Strong Roots Flooring. The project was an interior renovation of a new building located at 2540 Enterprise Way, Kelowna. This is a two-storey building with retail space, a shop, and a warehouse on the main floor, including reception desk and showroom, and offices on the second floor with both common and service areas.
